At the end of *You Can't Kill the Multiverse (But You Can Mess With its Head)*, Doctor Alhambra, the chief scientist of the Transdimensional Authority, set up an alarm to warn him if a universe is succumbing to the universe-killing machine that is at the heart of the story. But how would the Transdimensional Authority respond if that alarm went off?

In *Good Intentions*, the first book in the Multiverse Refugees Trilogy, but also the sixth Transdimensional Authority novel, we find out. In the process we not only meet the most unusual refugees in fiction (probably), learn what Noomi Rapier's brother does (and with whom), revisit Dingle Dell, and finally discover what happened to chapter seventeen of *The Multiverse is a Nice Place to Visit But I Wouldn't Want to Live There*.

In another life, Ira Nayman was a skydiving WWI hero, a yak herder in the treacherous Rocky Valleys and the lead guitarist for the band The Strange Feebles. Since that other life happened in another universe, it may not be as impressive to you as it sounds.

In this universe, Ira is celebrating the fiftieth anniversary of his decision to devote his life to writing comedy, in all of its forms and in a variety of media. His Web site of political and social satire, *Les Pages aux Folles*, has now been updated weekly for over fifteen years. The ninth book in the Alternate Reality News Service series, *E Deplorables Unum*, was self-published in January, 2019; two more books in the series will be published before the end of the year. *Good Intentions* is his sixth Multiverse novel published by Elsewhen Press.

Ira is also surprised to find himself the editor of *Amazing Stories* magazine. Yes, **that** *Amazing Stories* magazine. I know, right?

He finds his life in this universe exciting enough. The way things go, he's probably allergic to sky...
