## PRESS RELEASE

FOR IMMEDIATE RELEASE

### The book they tried to stop – revealing the truth behind a conspiracy against the British monarchy?

*Author C.R. Berry's first book in the Million Eyes trilogy tells the story of the two investigators who uncovered the powerful people behind a shocking conspiracy, against the Royal family, that has shaped the last 1000 years.*

**DARTFORD, KENT – 09 March 2020** – Elsewhen Press, an independent UK publisher specialising in Speculative Fiction, is delighted to announce the publication of the print edition of *Million Eyes*, the first book in a new trilogy from author and conspiracy investigator, **C.R. Berry**, tackling power, corruption and destiny.

What if we're living in an alternate timeline? What if the car crash that killed Princess Diana, the disappearance of the Princes in the Tower, and the shooting of King William II weren't supposed to happen?

Ex-history teacher, Gregory Ferro, found evidence that a cabal of time travellers is responsible for several key events in our history. These events all seem to hinge on a dry textbook published in 1995, referenced in a history book written in 1977 and mentioned in a letter to Edward III in 1348. Ferro teamed up with down-on-her-luck graduate, Jennifer Larson, to get to the truth and discover the relevance of a book that seemed to defy the arrow of time. But the time travellers were watching closely. Soon, Ferro and Larson were targeted by assassins willing to rewrite history to bury them.

*Million Eyes* was initially published in a digital edition in January, to widespread acclaim despite a social media campaign waged against author C.R. Berry by those behind the conspiracy. Thankfully, the attention apparently made it more difficult for them to carry out the threats they had made against Berry. *Million Eyes* is available from today in a print edition, to encourage more readers to discover the truth that is undoubtedly out there.

#### Notes for Editors

#### About C.R. Berry

C.R. Berry caught the writing bug at the tender age of four, and has never recovered. He realised pretty quickly that his favourite characters were usually the villains. He wonders if that's what led him to become a criminal lawyer. After a few years spent getting a more rounded view of human nature's darker side, he quit lawyering and turned to writing full-time. He now works as a freelance copywriter and novelist and blogs about conspiracy theories, time travel and otherworldly weirdness. He grew up in Farnborough, Hampshire, a town he says has as much character as a broccoli. He's since moved to the "much more interesting and charming" Haslemere, in Surrey.
